

## HA THI THUY DUONG

---

District 7, HCM • httd343@gmail.com • 0397221516

### Summary

With knowledge in **HTML, CSS, JavaScript and ReactJS**, I hope to contribute to your team by providing innovative solutions that improve user experiences and add value to your business. I **have a growth mindset and wish to learn** from everyone that I have a chance to work with to gain experience and build the foundation for my future position as a **Product Manager**.

### Education

**TON DUC THANG UNIVERSITY**

2021 – 2025

Software Engineering. GPA: 3.4/4.0

### Skills

**Technical:** ReactJS, Redux, Tailwind, Nodejs(ExpressJS), Java, MySQL, MongoDB, Git

**Language:** English (Proficiency)

**Awards:** GeoComply Scholarship, Algorithms and Data Structures Certification by freeCodeCamp, Agile development & Scrum framework by NetCompany.

### Experiences

**Freelancer apprenticeship**

June 2024 – Present

**Front-end Developer**

- Assist a freelancer in his personal and freelance projects and earn wisdom as well as experience from him and the projects along the way.
- Tech stack: **ReactJS, Redux, Typescript**

**THE ARK STUDIO**

April 2024 – June 2024

**Front-end Developer Intern**

- Build a professional landing page with NextJS and MUI to demo with customers.
- Implement 2 user interfaces "About us" and "Tech we used" for the company's portfolio.
- Communicated between team members via Github, Trello
- Tech stack: **ReactJS, NextJS, MUI, Typescript**

### Projects

**PLACEPAD**

June 2024 – Present

**Front-end Developer**

- Develop websites (Golang framework for backend and ReactJS for frontend) with 4 modules: Management, Payment, Chat, Admin
- Responsibility: Implement UI for Management module

**STORE MANAGEMENT**

August 2023 – December 2023

**NodeJS Developer**

- Using ExpressJS, Bootstrap and MongoDB develop a website that provides Point of Sale functionality for sales at retail stores for phones and accessories. The users of this web application are sales staff and administrators at the phone store.
- Required functions include account management, product catalog management (admins only), customer management, transaction processing, and statistical reporting.
